

Managing forest biodiversity - balancing integration and separation

J. Bo Larsen

University of Copenhagen

Segregated - - - - - Mosaik - - - - - Integrated

Natural forest (non intervention + old land-use forms)

The nature-friendly matrix:

Integrated multi-functional forests

- ✓ Close-to-nature forestry
- ✓ Continuous cover forestry
- ✓ Retention forestry,
- ✓ Reduced Impact Logging
- ✓ Mimicking natural disturbance

+ additional measures
(dead wood etc.)

Ligni-culture (forest plantations)
